KEY TO THE REGISTER.

1895-96.

KEY TO SYMBOLS OF CLASSIFICATION IN REGISTER BOOK.

CLASSIFICATION OF LLOYD'S REGISTER.

*✠1 ..... Character of Iron vessels built with thicker plating than required for ✠1.

✠1 ✠1 ✠1 Characters of Iron ships built according to the Rules of the Society in force between the years 1864 and 1871.

100A1 95A1
90A1 85A1
80A1 75A1
} Characters of ships built of Iron or Steel according to the Rules of the Society for Iron ships since 1869.

A1 ..... Without a numeral prefixed, character of Iron vessels built for a special purpose.

A1 ..... Character of Wood or Composite ships of the first class well and sufficiently equipped. The figures in column 5 (Steamers), column 6 (Sailing Ships) prefixed to the character indicate the term of years for which the vessel is at present classed : thus 11A1, Cont 6A1, Rest 6A1. (See note under Cont and Rest). The figures in column 7 indicate the expired terms of years assigned, originally if on the first line, and on continuation if on lower lines.

A1 ..... Character of ships which have passed period assigned on original Survey, or Continuation, or Restoration, and of ships, not having an original Character, which are found to be fit to carry dry and perishable goods. The term of years for which the character A in red is assigned appears under the class in column 5 (Steamers), column 6 (Sailing Ships) : thus SSPly.88-6yrs.

Æ1 ..... Character of ships fit for conveyance of dry and perishable goods on short voyages. The term of years for which the character Æ is assigned appears under the Class in column 6 (Sailing Ships) : thus SSPly.88-4yrs.

E 1 ..... Character of ships which have been found on survey fit for the conveyance of cargoes not in their nature subject to sea damage.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped. A line after the A (thus, A—) signifies that the equipment is deficient from that required by the Rules.

The words "*with freeboard*" under the character signify that the freeboard assigned is a condition of the vessel's class.

A ring over the figure 1, thus ⓵ indicates defects reported in the masts or rigging of a Sailing ship imperilling the vessel's safety.

A *red* ring over the figure 1, thus ⓵ indicates defects reported in the engines and boilers of a Steam ship imperilling the vessel's safety.

CLASSIFICATION OF THE UNDERWRITERS' REGISTRY.

A1* , A1* ..... Characters of Iron or Steel Vessels built in excess of the Rules and of extra quality of Iron.

A1* , A1*; A1 , A1; A , A Characters of Iron, Steel, or Composite Vessels built according to the Rules.

Vessels classed in Red have been built under the inspection of the Surveyors to the Liverpool Registry.

The figure 1 or 2 affixed to Symbols of Classification signifies the Character of Equipment.

The figures in the 17th (Sailing Vessels) or 16th (Steamers) Column represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent. respectively, as assigned by the Underwriters' Registry, but these drafts do not indicate approved load lines.

All vessels are required to be surveyed periodically. The *date of Survey* only certifies to their state of efficiency *at that time*.

N.B.—In order to prevent the disappointment arising from Ships losing their Characters from want of survey, it is hereby intimated that the duty of giving NOTICE OF PERIODICAL SURVEYS required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters or Agents.

3 *decked-rule*	4	3	Built according to the Rules for Three-Decked Vessels, Section 41.

The Figures under a Character denote the date when the Vessel was last Surveyed.

The 6th, 7th, and 8th Columns (Sailing Vessels) or 5th, 6th, and 7th Columns (Steamers) left blank, indicate that the Vessel has never been Classed in the Register Book.

When the sixth (Sailing Vessels) or fifth (Steamers) column is left blank except as regards the date of Survey last recorded, it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fee due in the case.

The dates following the name of the Master in Col. 3 (Sailing Ships) and Col. 2 (Steamers) indicate (1) the year when the Master entered the service of the present Owner of the Vessel and (2) when he was appointed to the Vessel.

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

The formulæ from which the Nominal Horse Powers are calculated are :—

1. In cases of vessels in which the particulars of boiler pressures and surfaces are known—

$$\text{NHP} = \frac{P+340}{1000}\left(\frac{D^2\sqrt{S}}{100}+\frac{H}{15}\right) \text{ where the boiler pressure is below 160 lbs.}$$

$$= \frac{P+590}{1500}\left(\frac{D^2\sqrt{S}}{100}+\frac{H}{15}\right) \text{ where the boiler pressure is 160 lbs. or above.}$$

If the boilers are fitted with Forced Draught or Induced Draught appliances, then $\frac{H}{12}$ is taken instead of $\frac{H}{15}$.

2. In cases where particulars of the boiler pressures and heating surfaces are not known :—

$$\text{NHP} = \frac{D^2\sqrt{S}}{100} \text{ for Triple and Quadruple Expansion Engines.}$$

$$= \frac{D^2\sqrt{S}}{120} \text{ for Compound Engines.}$$

$$= \frac{D^2\sqrt{S}}{130} \text{ for Simple Engines.}$$

In the above Rules, D = diameter of L.P. Cylinder in inches.
S = Stroke in inches.
H = Heating surface in square feet.
P = Working pressure in lbs. per square inch.

NOTE EXPLICATIVE CONCERNANT LE REGISTER.

1895-96.

NOTE EXPLICATIVE DES MARQUES DE CLASSIFICATION DANS LE REGISTER-BOOK.

CLASSIFICATION DU LLOYD'S REGISTER.

*⚓A1 ..... Cote des navires en fer, construits en tôles plus fortes que celles qui sont exigées pour la cote ⚓A1

⚓A1 ⚓B1 ⚓C1 Cote des navires en fer construits conformement aux réglements de la Société, en vigueur de 1864 à 1871.

100A1 95A1
90A1 85A1
80A1 75A1 } Cotes des navires en fer ou en acier, construits conformément aux réglements de la Société pour navires en fer, depuis 1869.

A1 ..... Non précédé d'un chiffre, cote des navires en fer, construits pour un service spécial.

A1 ..... Cote des navires en bois et composites de la première classe, bien et suffisamment équipés. Les chiffres de la 5me colonne (Bateaux à vapeur) et de la 6me colonne (Navires à voiles), précédant cette cote, indiquent le nombre d'années pour lequel le navire est classé présentement ; ainsi: 11A1, Cont. 6A1, Rest. 6A1, (voir la note pour Cont. et Rest.) Les chiffres placés dans la 7me colonne (Bateaux à vapeur) et dans la 8me colonne (Navires à voiles) indiquent les années expirées de la période de durée assignée à la cote originelle, si le chiffre est placé à la première ligne, et de la période de continuation, s'il est placé à une des lignes en-dessous.

A1 ..... Cote des navires qui ont dépassé la période de durée assignée à la cote par la visite originelle ou par celles de continuation ou de restitution, et des navires n'ayant jamais été cotés dans le Registre, mais qui sont reconnus propres au transport de marchandises sèches et périssables. Le nombre d'années pour lequel la cote A en rouge est assignée, est inscrit sous la cote dans la 5me colonne (Bateaux à vapeur) et dans la 6me colonne (Navires à voiles) ; ainsi : SS Ply.88–6yrs.

Æ1 ..... Cote des navires propres au transport de marchandises sèches et périssables pour de courtes traversées. Le nombre d'années pour lequel la cote Æ est assignée, est inscrit sous la cote, dans la 6me Colonne (Navires à voiles) ; ainsi : SS. Ply. 88—4 yrs.

E1 ..... Cote des navires qui, lors de la visite, ont été reconnus propres au transport de cargaisons qui par leur nature ne sont pas exposées aux avaries d'eau.

Le chiffre 1 ajouté à la cote, indique que le navire est bien et suffisamment équipé. Un trait après la lettre A (ainsi : A—) signifie que l'équipement est défectueux d'après les prescriptions du réglement.

Les mots " with freeboard " sous la cote indiquent que le francboard assigné est une condition de la cote du navire.

Un cercle à travers le chiffre 1, ainsi ⊕, indique des défectuosités signalées dans la mâture ou dans le gréement d'un navire à voiles, de nature à compromettre la sécurité du navire.

Un cercle *rouge* à travers le chiffre 1, ainsi ⊕, indique des défectuosités signalées dans les machines et chaudières d'un Bateau à vapeur, de nature à compromettre la sécurité du navire.

CLASSIFICATION DU "UNDERWRITERS' REGISTRY."

A1*, A1* ..... Cotes des navires en fer ou en acier, dans la construction desquels on a surpassé le réglement et employé du fer de qualité supérieur

A1*, A1*; A1, A1; A, A Cotes des navires en fer, en acier, ou composites, construits conformément au réglement.

Les navires cotés en rouge ont été construits sous la surveillance des Inspecteurs du Liverpool Registry.

Les chiffres 1 et 2 ajoutés aux marques de classification, signifient la cote de l'équipement.

Les chiffres placés dans la 17me colonne (Navires à voiles) et dans la 16me colonne (Bateaux à vapeur) représentent le tirant d'eau moyen, correspondant à une immersion de 65, 70, 75 et 80 pour cent. respectivement, comme il est assigné dans le "Underwriters' Registry" ; mais ces tirants d'eau n'indiquent point les lignes de charge admises.

Tous les navires doivent être visités périodiquement. La *date de l'expertise* ne certifie que l'état des navires *à l'époque de la visite.*

N.B.—Afin d'éviter les mécomptes provenant de la déchéance de la cote d'un navire pour avoir négligé la visite, avis est donné par la présente, qu'il est du devoir d'armateurs capitaines ou agents, de demander les visites périodiques imposées par le réglement. Il en est de même dans le cas où des reparations sont devenuer nécessaires par suite d'avaries ou pour une autre cause quelconque.

3.88	6	5	La cote du navire lui a été retirée, pour ne pas avoir satisfait aux réglements de la Société à la date mentionnée.
...	8	7	La cote du navire a été retirée à la demande de l'armateur.

3 *decked-rule.*	4	3	Construit en conformité avec le réglement pour navires à trois ponts, Section 41.

Les chiffres sous la cote indiquent la date à laquelle le navire a été visité pour la dernière fois.

Les 6me, 7me et 8me colonnes (Navires à voiles), ou les 5me, 6me et 7me colonnes (Bateaux à vapeur) laissées en blanc, indiquent que le navire n'a jamais été coté dans le Register-Book.

Lorsque la 6me colonne (Navires à voiles), ou la 5me colonne (Bateaux à vapeur) est laissée en blanc, à l'exception de ce qui regarde la date de la dernière visite enregistrée, cela indique, que la cote est expirée, ou a été retirée pour manque de visite, ou par suite de non paiement des honoraires dus dans ce cas.

Les dates qui suivent le nom du Capitaine dans la colonne 3 (Navires à voiles), ou dans la colonne 2 (Bateaux à vapeur) indiquent (1) l'année pendant laquelle le Capitaine est entré au service de ses armateurs présents, et (2) celle où il a été nommé au commandement du présent navire.

Bien que le Comité prenne toutes les mesures possibles, pour obtenir des renseignements exacts sur les navires énumérés dans le Register-Book de la Société, il est à noter que dans le cas où les navires ne sont pas cotés par la Société, elle ne peut garantir la complète exactitude de tous les détails donnés relativement aux dates du doublage, au tonnage, aux dimensions, aux ponts, à la classification, etc.

Les formules au moyen desquelles la force nominale en chevaux doit être calculée sont :—

1. Quand les détails des pressions et surfaces des chaudières des navires sont donnés—

$$\text{NHP} = \frac{\text{P}+340}{1000}\left(\frac{\text{D}^2\sqrt{\text{S}}}{100}+\frac{\text{H}}{15}\right) \text{ quand la pression des chaudières est en-dessous 160 lbs.}$$

$$= \frac{\text{P}+590}{1500}\left(\frac{\text{D}^2\sqrt{\text{S}}}{100}+\frac{\text{H}}{15}\right) \text{ quand la pression des chaudèires est 160 lbs où au-dessus.}$$

Si les chaudières sont pourvues d'un tirage artificiel, $\frac{\text{H}}{12}$ est pris au lieu de $\frac{\text{H}}{15}$.

2. Quand les détails de la pression et les surfaces de chauffe ne sont pas donnés—

$$\text{NHP} = \frac{\text{D}^2\sqrt{\text{S}}}{100} \text{ pour les machines à Triple \& Quadruple expansion.}$$

$$= \frac{\text{D}^2\sqrt{\text{S}}}{120} \text{ pour les machines compound.}$$

$$= \frac{\text{D}^2\sqrt{\text{S}}}{130} \text{ pour les machines simples.}$$

Dans les Reglements ci-dessus D = diamètre du L.P. Cylindre en pouces.
S = Course du piston en pouces.
H = Surface de chauffe en pieds carrés.
P = Pression des grandes chaudières en livres par pouce carré.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
